December 10, 2010

Dear Kay,

Per the instructions in your email on December 3, 2010, I am writing to update the ISES data that was incorrectly reported for the Necedah Area School District when the ISES window closed on December 1, 2010.

Two students were incorrectly reported, in ISES, as dropouts. An internal code used in our Skyward program had been downloaded to ISES in the year end record for 2008-2009 school year to inaccurately record the students as potential dropouts. In actuality, they were in our district early in the year and then, under contract through us, enrolled in an HSED program at Western Wisconsin Technical College. They graduated from WTC in May 2009.

We first discovered this error just before locking down ISES on December 1, 2010. We were informed that because this was recorded in the previous school year, it was not correctable. We are submitting this as a data errata letter to be placed on the WINNS website.

We wish to thank you and your staff for their help in helping to identify and address this error.

Sincerely,

Peggy Saylor
